Dear Mr. President,

Greetings to our Hellenic Dermatologic Surgical colleagues. On behalf of the organizing committee of the for the creation of the first international Scripps Clinic/ Univ. California San Diego Surgical Anatomy and Cutaneous Surgery Course we would like to inform you that we are very interested in having the 25th anniversary meeting in Athens, Greece in 2009. Dr. Hubert T Greenway who was the founder of the course has asked me to organize this process and explore what interest there is in Greece in helping to organize certain aspects of this meeting and to solicit the help of yourself and members of the Hellenic Dermatologic Surgical Society in Greece in order to facilitate this process. I have attached a preliminary program as it has appeared to this point in the United States. I am interested in your thoughts and in your support.

Respectfully Yours,

Diamandis J. Papadopoulos MD, *Associate Clinical Professor, Emory University School of Medicine Dermatology/Dermatologic and Mohs Surgery, Medical Director, Metropolitan Dermatologic Surgery, Atlanta, Georgia, USA*
